## TPYC P. HADGREY, Pres't. E. E. REXPORD, Cash BUSINESS CONTINUES DULL

Local Retail Trade Has Not Recovered from the Disturbance of Last Week.

Wheat Was Weak, While Corn and Oats Were Firmer, with an Absence of Speculative Features-Prices on General Produce.

### MONEY AND STOCKS.

Indianapolis Retailers Complain that Busi-

ness Ifas Not Yet Been Restored. The street-car tie-up, which so seriously disturbed the general retail trade of the city, now that a suspension of hostilities has come, has not brought with it a restoration of business. The six associated banks yesterday made a showing of clearings amounting to \$582,900.12; balances, \$24,-807.36, as against the corresponding date in 1891, when the clearings were \$645,612.44; balances, \$69,940.34.

NEW YORK QUOTATIONS. At New York, yesterday, money on call was easy at 1 1/2 @2, the last loan being made at 2, closing offered at 2 per cent.

Prime mercantile paper, 42512 per cent. Sterling exchange was quiet but easier at \$4.85% for sixty-day bills and \$4.87% for demand.

The total sales of stocks were 450,685 chares, including the following: Atchison, 6,980; Delaware, Lackawanna & Western, 9.500; Erie, 19,500; Lake Shore, 21,938; Louisville & Nashville, 1,170; Michigan Central, 2,780; Northwestern, 32,561; New Jersey Central, 3,100; New York Central, 4,104; Northern Pacific preferred. 4,693; New England, 52,085; Reading, 113,800; Richmond & West Point, 13,000; St. Paul, 4,400; St. Paul & Omaha, 4,455; Western Union, 4,100.

The stock market yesterday was not as active as on Saturday, nor were the movements on so large a scale. There was on the whole a firm temper to the dealings, but considerable irregularity existed. While the Vanderbilts still displayed the most pronounced strength, the coalers, industrials and New England were specially weak at times during the forenoon. A further engagement of gold for export had some influence in creating a bearish temper, but there was no renewal of the raid of Saturday and prices were left more to their natural and with the removal of the pressure a firmer tone was developed. There was very little doing for foreign account, but better support in the coal stocks was a factor in the improved tone. while the positive strength shown by Lake Shore and later by Northwestern brought the whole list along in the afternoon. The Richmond & West Point securities were comparatively quiet during the forenoon, but the stocks rallied sharply and the bonds later in the day more than recovered the loss of the last few days. The grangers in general were well supported, though St. Paul, on a large business, fluctuated within the narrowest limits and remained during the entire day in the neighborof 80, but as the day wore slong the entire market showed less feverishness and prices rose slowly in response to the more settled feeling in the room. Reading and New England were again the active specialties, but while the latter rose slowly with the general list, the former was in supply around 55 and failed to regain its early loss. Among the specialties the New York, Susquehanns & Western stocks were again strong and comparatively active, the preferred making a material improvement, while Cordage dropped 8's per cent., only a small portion of which was regained during the afternoon. The leading stocks, however, remained feverish and unsettled to the end, and in the last hour there was the most determined raid of the day made on the list when Reading, Lake Shore, Northwestern and New England were materially depressed, Lake Shore losing almost all of its heavy gain of the forenoon. The opening of the general list

ties retained most of their gains, and the Richmond & West Point preferred closed at 6714, the highest price of the day, and 24 better than Saturday. Railroad bonds were rather quiet until the afternoon, when the number of issues traded in became larger, and increased activity in Richmond & West Point issues added character to a market which had lacked features. These bonds were again strong, and while reacting in the last hour under pressure, still scored the only important gains of the day, the fives being

was in most cases tractionally better than

Pacific, for no apparent reason, was up 14

per cent., and Omaha and Delaware &

Hudson each 1 per cent. There was no set-

session, and periods of weakness al-ternated with periods of strength through-

out the entire day. The raid in the last

hour brought almost everything traded in

down to the lowest points of the day, but

a sharp rally in the leaders occurred in the

last few minutes, the market closing act-

ive and unsettled, generally at fractional

losses for the day. Reading, however, was down 24, Jersey Central 2, and New Eng-

land 1 per cent. The low-priced special-

Saturday's final figures, while Missouri

up 3% and the sixes at 634 and 9 per cent. Government bonds were dull and steady. and State bonds were the same. Closing quotations were:

lawn addition..... Conveyances, 19; consideration .... \$15,000.00 To Make Lean Pork,

American Farmer. It is cheaper to produce meat that contains a large proportion of lean with the fat than to fatten the hog to such a condition as to lit it only for the production of | clined %@14c on lower cables, larger relard, and it is a fact that by feeding for lean meat a greater weight of carcass is secured and at no more expense than in producing an excess of fat, writes the editor of shipments, advanced 1200 so on local cover-Western Swineherd. This is explained by ing declined 1401 sc on foreign and local reason of the fact that. when an animal is given food containing the elements of growth of bone and muscle as well as fat. the condition of the animal is sustained in | 1.02%, closing at \$1.00%; April, \$1.01% @ a manner to permit more perfect digestion and assimilation, and a greater propor-tion for the support of the system of the nutritions elements that are required, and which are more evenly distributed through the body instead of the semi-diseased condition produced when corn is given as an ex-clusive diet. Hence the farmer who diminishes the ration of maize, allowing but a portion only, substituting therefor bran, middlings, milk and clover cut fine and scalded-will have his hogs larger, heavier. healthier, and of a better quality of flesh than from corn. While giving the advan-tages of a systematic method of feeding for the best results in producing the heavi-est pork, the fact that prime lard brings a price that makes it desirable on the part of the farmer to have his hogs fat, it must be admitted that it is a serious obstacle in the way when lean meat is advocated, but the lean is simply interspersed with the fat. and the greater increase from the variety of food does not diminish the supply of lard. The farmer will find that in those portions of the carcass from which the lard is produced but little difference will be observed, and the hog will be much more

valuable as a whole. Insect Powder. Subscriber: Insect powder, if pure and of good strength, will drive away cockroaches when scattered freely about their haunts. Scalding water poured into the cracks of the floor and sink holes is an effective rem-

Chicago Wheat Gives Way Under Influence of Bad News Home and Abroad.

The Speculators with Lines of Short Grain Out Enabled to Scalp Off Handsome Profits in Both the Leading Cereals.

TRADING AT CHICAGO. Wheat Touches 88c and Closes Weak at

881sc-Corn at 4114c. CHICAGO, March 7 .- The wheat market showed much depression throughout most of the session and prices were generally weak and lower. There were one or two rallies, but the strength was only temporary and the close was within 'sc of the lowest point touched during the session, and shows a loss of 14c compared with Saturday's closing figures. The news was generally discouraging. The weather conditions were an important factor, as they were reported favorable almost everywhere, not only for the winter wheat, but for the early commencement of spring seeding operations. There was no cold weather reported anywhere and even in the extreme northern part of North Dakota the temperature was said to be 360 above zero. Another bear feature was the weak cables. Liverpool was reported 4d lower, and London from 3d to 9d lower, while all domestic markets were very much depressed, New York falling off 1c and Duluth and Minneapolis about as much. Receipts continued liberal everywhere, especially in the Northwest, and the indications from the start were that there would be a very considerable increase in the visible supply. Many discouraged bolders started to sell at the tap of the bell, and for a time the pressure was heavy, and May, starting at 88%c, and touching 88%c, sold off to 884c, with only a light demand. When the price got down to 884c. however, the shorts began to take advantage of the drop to cover, and there was a gradual rally to 8834c. A report that the weather in France continued very cold, that there was some export buying in New York, and that 150,-00 bushels had been worked at Detroit was also some belp in bringing about the improvement. When the increase of 445,-000 bushels in the visible supply was reported the market lost a little, but this was subsequently recovered. Among the dispatches received from abroad was one that the Liverpool Corn Trade News had reduced its estimates of the weekly European requirements from 7,680,000 bushels to less than 7,000,000 bushels. This, in effect, is reducing the estimate of the needs of Europe this year over \$5,000,000 bushels, or in other words that much less American wheat will be required. During most of the last hour hour the market held

steady at 884 @884c, but grew very weak during the last ten minutes and touched the lowest point of the day, 88c. closing weak at 88 sc. The break near the close was attributed to a cessation of the demand by shorts and weak cables. The clearances from the sea-board Saturday were 711,000 bushels of wheat and 11,000 barrels of flour. Late cables quoted Paris lower, with Berlin higher on spot, but lower on futures. Pardridge made a pretense of selling some wheat, but was generally believed to be buying heavily through the brokers, to cover his short line and secure

his profits. Corn was quiet and weak, but held its own much better than wheat, the decline being only about 4c. The receipts were in excess of the estimate by some fifty cars and included nineteen cars of contract. Trade was slow and the offerings were fair. The shipping demand was slow, and the close was at a loss of 'se compared with Saturday.

Oats were quiet and weak during most of the session, but closed with a gain of &c. Hog products were stronger, especially for pork. Live hog receipts were below the estimate and prices at the yards 5@10c higher. After making an advance of 20c, pork closed with a gain of 15c. Lard and ribs are .0242c higher. Estimated receipts for to-morrow are:

Wheat, 280 cars; corn, 430 cars; oats, 185

the United States on Saturday. NEW YORK, March 7 .- The visible supply of grain on Saturday, March 5, as compiled by the New York Produce Exchange was as follows: Wheat, 41,555,285 bu, an increase of 445,000; corn, 11,051,297 bu, an increat of 664,741; oats, 3,836,387 bu, crease of 55,573.

a decrease of 49,835; rye, 1,819,050 bu, a decrease of 49,304; barley, 1,510,759 bu, a de-The Foreign Grain Trade. LONDON, March 7 .- The Mark Lane Express, in its weekly review of the British grain trade, says: English wheats are steady; foreign wheats made a fractional advance, California being 6d dearer and American red winter 3d dearer. Flour was weak, the provincial markets quoting American 6d lower. Barley was firm. There was a rise of 9d in prices, with a reduced sale at the advance. Corn went up 3d; new American on passage was quoted at 20s 9d. The market for oats was steady; American was quoted at 18s 5d. At to-day's markets there was a better inquiry for English wheats at full prices, while foreign wheats were neglected. English flour was 6d cheaper and American flour 9d cheaper. Corn and oats were 3d dearer. Beans and peas were steady.

## TRADE IN GENERAL

The Weekly Journal, \$1 Per Annum !

-THE-

-------------------

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has, a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

- Was reduced to -

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in
